

HARTNELL COLLEGE

HARTNELL COLLEGE

# PRESIDENT'S REPORT

## Next steps in **Governance Redesign**

At the Spring Student Success Conference, our Governance Redesign Task Force offered a new framework for closer evaluation of college standards that would bring about meaningful change and provide an inclusive environment dedicated to achieving equitable outcomes. The task force visited councils and constituency groups for feedback. After extensive input from faculty, staff, and students, the task force developed two models (on page 2) for consideration.

Bearing in mind our constituents' impressions, I decided that option 2 was the way forward. I also recommend that the Academic and Student Affairs councils convene together every other month to foster a nurturing environment that encourages interconnectedness and teamwork. The equal representation of groups within the councils, combined with their streamlined structure and broader eligibility requirements for membership, will strengthen our institution's foundation by drawing on diverse perspectives and skills. With option 2, we are not just adopting a new council model; we are opening a window to infinite possibilities that will take Hartnell College to greater heights and uphold the values of our esteemed institution.

With a positive outlook, the college has actively engaged in dialogue surrounding governance. Taking constructive recommendations and implementing change for long-term success will ensure more

significant outcomes than simply addressing crises as they arise. Governance movement within higher education can be challenging, but I am optimistic that our best efforts will create lasting effects moving forward.

To set the stage, each council will be presented with specific charges. These charges will serve as a roadmap to guide their actions and efforts throughout the year. In addition, to further enhance their capabilities and effectiveness, both tri-chairs and council members will have access to professional development opportunities. This valuable training will empower our leaders and members with the necessary tools to meet their respective goals and make an impactful contribution to our academic community. An evaluative component will be implemented to maintain a high level of accountability and ensure that everyone stays on the right path. This dynamic process will involve reviewing our progress periodically, identifying areas for improvement, and making suitable adjustments as necessary. This comprehensive approach will empower the councils to remain agile and effective, fostering a vibrant and supportive environment for all members of our academic community.

**Michael Gutierrez**  
Superintendent/President

# Governance Redesign (continued)

## Model #1

- Council sizes are different based on mission, priorities and/or responsibilities.
- Council membership is more prescribed, with included members based on expertise or responsibilities.
- Student Success Council reflects new accreditation standards (Academic Affairs and Student Affairs combined).
- Each council has five students with voting rights.

## Model #2

- **Council sizes are the same.**
- **Council membership is less prescribed, with fewer members having specific expertise and others by elected appointment.**
- **Academic Affairs Council and Student Affairs Councils remain independent.**
- **Each council has four students with voting rights.**

## A Message from the Governance Redesign Task Force

When the president charged our task force with developing a new governance redesign, we wanted to get it right. Redesign was attempted during the last academic year, but ultimately did not succeed because certain constituent groups did not feel represented. In the past, outside agencies noted that our governance structure needed better constituency engagement.

Our approach was simple and strategic. First, we reviewed the great work that had already been done on governance redesign last year, building upon it using research from the literature and best practices at other institutions. Second, the task force deliberately and methodically pursued feedback from administrators, faculty members, staff and students at various committees and councils. Last, we incorporated that feedback to provide not just one, but two possible models for governance redesign presented at the town hall this week.

The most exciting changes in the new governance structure are the specific codification that staff members will have equal representation on all councils, and students will have greater representation on councils with stipends provided for their input and work.

No governance model is going to perfectly meet the concerns, needs and wants of all constituents, but the task force is confident that because we took the time and effort to have members of our campus community provide the scaffolding for the model that were developed, we will have a new governance structure that better achieves our college's top priority of helping students succeed."

# Achieving the Dream

Hartnell College is proud to have accepted the invitation to join an inspiring group of ten institutions in Achieving the Dream's (ATD) inaugural Accelerating Equitable Outcomes cohort. ATD is a national partner and champion for community college leaders nationwide that help empower institutions such as Hartnell College to take strides away from tradition that leads to transformation in how we connect and engage our students.

In February, Hartnell College was honored to attend ATD's annual convening in Chicago. Here, we were able to exchange ideas with other student-focused peers from around the nation and gain a fresh

perspective on how college transformation can be used to close equity gaps that drive economic vitality.

Through this commitment, Hartnell College is devoted to thinking outside the box to ensure that how we teach and connect with our students is an equitable model for our students to engage and excel. We are excited to embark on this journey of discovery and learning new skills that will build our strength and capabilities to serve our students better.

## Bringing theatre to new and unexpected places!

This semester, theatre students are brainstorming creative ways to do theatre in non-traditional locations. While the performing arts center is undergoing renovations, our Theatre & Cinema department and The Western Stage are dreaming up exciting alternatives!

Keep an eye out for performances this spring, and contact faculty River Navaille for opportunities to get involved at [rnavaille@hartnell.edu](mailto:rnavaille@hartnell.edu).

# Hartnell biology students publish genome poison oak article

In February, the 13th Hartnell College Genomics Group manuscript was published in the peer reviewed scientific journal *Microbiology Resource Announcements*. The paper titled “Complete Chloroplast Genome Sequence of the Western Poison Oak, *Toxicodendron diversilobum* (Anacardiaceae), from California”, represents the first

study to characterize the complete chloroplast chromosome from this species.

The research and publication, led by biology instructor Dr. Jeffery Hughey, was part of a STEM Micro-Internship project that was published by 27 student authors. Through the internship, students gained valuable skills and experience through their STEM micro-internship project - including genome assembly, gene annotation, map construction, and scientific writing. All of these components ultimately contributed to the successful publication.

The publication can be found here:

<https://journals.asm.org/doi/10.1128/mra.01279-22>

## Tech hour and IT updates

In response to questions regarding the ransomware attack in October, the IT department hosted an informative Q&A technology hour on February 22.

A recording of the one-hour session will be available soon! A communication will be shared when it is ready to view.

# College and Career Day at King City High School

Hartnell College's TRIO, Workforce Development, King City Education Center, and Teacher Pathway/ Maestros program were honored to join the waves of students participating in King City High School's Career Day. It was a great day to connect with students and the community and to distribute swag!

**The President's Weekly Report highlights accomplishment, engagement, progress, and success for and within the Hartnell College community.**

**The President's Weekly Report will be distributed every two weeks. Please send information and photos by each Tuesday to [vagonzalez@hartnell.edu](mailto:vagonzalez@hartnell.edu).**

# CTE announces raffle winners

In February, CTE delivered raffle prizes to students who attended the CTE Open House on December 9, 2022, that participated in a scavenger hunt (by interacting with programs and industry).

Everardo Zepeda and Anthony Merino (pictured), who are in the Engine Maintenance class, were the winners. They are joined by Sylvia Miranda, Career Counselor at Rancho San Juan, and their instructor Joseph Frausto.

Eduardo Manuel Sanchez and Angel Licona (pictured) were the winners. Both students are in the automotive class. Evan Robinson, Career Counselor at Everett Alvarez High School, and instructor Rich Alvarez joined them.

On February 22, 2023 Kerry DeCarli presented Homero Eristeo Guerrero, Mt. Toro High School.

On February 28, 2023, raffle prizes were delivered to students at Salinas High School. Pictured is Abraham Gamboa (who plans on attending Hartnell's Construction Management & Architecture program in the Fall), Alexa Zavala (who plans on attending Hartnell in the Fall), and Sonia Najera, also pictured is Allan Schooley, CTE Career Coordinator.

On March 4, 2023 Celia Anderson, Program Assistant delivered raffle prizes to Rogelio Mendoza Hernandez and Miguel Ramirez at Mission Trails ROP's Automotive Class. Both Rogelio and Miguel plan on enrolling in Hartnell's Automotive Program in the Fall of 2023. Also pictured: Richard Alvarez, Automotive Teacher and Noel Noroian, Career Counselor at North Salinas High School.

# Alisal Campus hosted FFA Project Competition Awards Banquet

On February 16, 2023, the FFA Project Competition Awards Banquet occurred at the Hartnell College Alisal Campus. Nine FFA chapters are in the Monterey Bay Section: From Watsonville to King City. Approximately 24 students participated in the competition.

The FFA Project Competition is a sectional-level activity where high school FFA members showcase their Supervised Agricultural Experience (SAE) projects and compete against their peers. Hartnell College staff (Guy Hanna, Melissa Casillas & Lluvia Del Rio) judged student projects and announced the winners during the event.

Approximately 80 guests were in attendance, including Trustee Irma Lopez, Dean Mostafa Ghous, Dean Clint Cowden, and a keynote by Steve McShane, the President of the Salinas Valley Chamber of Commerce. North Salinas High School's Restaurant Careers students prepared and served the meal.

Some examples of these types of projects include:

- Raising single livestock market animals to show and sell at a local fair,
- Volunteering time in educating the public about agriculture
- Researching methods to mitigate pests in plants and crops
- Restoration of farm equipment
- Farming many acres of forage, grains, or crops
- Raising livestock for breeding
- Working in agriculture for someone in sales or services

After 21 years, Hartnell College's Women's Basketball team is named 2023 Coast Conference Champs after their 57-51 win against San Jose City College!

# A long-time Hartnell ceramics teacher shows off her treasures spanning more than two decades

Written by Agata Popeda, Monterey County Weekly  
February 16, 2023

Pam Murakami's new exhibit, *Memories, Spirits and Heroes* at Hartnell College Gallery in Salinas, is more than a collection. It's the whole ceramic world of personalized Japanese mythology, inhabited by creatures like kappa, one of many yōkai, a reptilian water demon who kidnaps babies at worst or delights in silly pranks at best.

Yōkai are waiting on the bottom of Murakami's bowls, vessels and in sculptures just like they used to in streams and on forest paths, or in everyday household items, like an iron or a teapot.

"Some items can survive years, there is something supernatural about them," Murakami says about old teapots. Other creatures live their lives openly on her sushi plates, sometimes humanoid in appearance, stretching their prolonged limbs, cats with two tails as their companions.

Murakami's childhood was filled with Japanese folk stories. "Hawaii, where I was born, is a very spiritual place," she says. There were many ghost stories, including about ghost cats, which are considered ultimate shapeshifters. In their ceramic life, cats and cat-like creatures encounter other images and objects that fill Murakami's mind and memories, such as images of her hero, Yasser Arafat, and antihero, Donald Trump.

"I never thought of myself as a political person," Murakami says. She adds that she hopes Trump

*The work on display in Pam Murakami's exhibit *Memories, Spirits and Heroes* spans her career - some pieces were created recently while others date back to the 2000s.*

DANIEL DREIFUSS

will have a happy encounter with one of the yōkai since they are not really demons, just mischief-makers. In her opinion, he could really use one.

In terms of the recurring images of Arafat, "I believe that Palestinians should be given better treatment," Murakami says. At some point, she started collecting newspaper clippings and studying his images. "I'm fascinated by his head, the way he dresses."

Murakami majored in sculpture at the University of Hawaii and earned her master's in fine arts from the University of the Philippines. She moved to Monterey County in the 1970s and has taught ceramics part-time at Hartnell for the last 35 years.

"I feel honored, vulnerable and a little exposed," the artist says of the exhibit. "Because I'm not sure how people will react to the creatures that I have so much affection for."

# The Women's Education & Leadership Institute (WELI) Spring Soirée was a success!

The Hartnell College Foundation's Women's Education & Leadership Institute (WELI) Spring Soirée was a phenomenal success, thanks to the exemplary leadership of Co-Chairs Monica Tovar and Sharon Dilbeck. The vibrant emcee during the event, Andrea Bailey from Chevron's Corporate Affairs Department, did an outstanding job keeping everything running smoothly on this momentous occasion. Furthermore, the Foundation is immensely grateful for her and Chevron's dedication toward higher education initiatives.

Event attendees had the privilege of listening to an incredible lineup of speakers. Lina Gomez broke down the value and impact of entrepreneurship; Esmeralda Owen shared her passion for mentorship; Tama Bistran & Alla Zeltser revealed strategies for building lasting relationships in life today; and Drea Blackwell shared an inspiring perspective on overcoming obstacles along one's journey. The Foundation is eternally grateful for all that these remarkable individuals have contributed!

Lastly, the event concluded with a powerful and poignant story from WELI Scholar Alumna Maricarmen Gonzalez, highlighting the lasting impact of mentorship in her life. With your support and dedication to students like Maricarmen, we can continue transforming lives through meaningful relationships.

As always, a tremendous thank you to all of the event sponsors that help make this event possible!

# Teacher Preparation Program (TPP) induction ceremony

Hartnell's Teacher Preparation Program held their annual Induction Ceremony to commemorate the progress of 83 new students - 37 in Cohort 7 and 46 as part of the MAESTROs program. The ceremony was a momentous occasion, officially welcoming these future elementary and secondary teachers into their journey towards readiness!

Students, family and friends from the Teacher Pathways Program (TPP) gathered to celebrate their induction into Hartnell College's program. They were honored with certificates of recognition for beginning this journey along with speeches by inspiring speakers including current instructors and alumni. One student remarked that it felt like a family reunion as Mayra Gonzalez, TPP Cohort 1 Graduate shared her remarkable story as a 4th Grade teacher at Mary Chapa Academy in Greenfield; motivating those starting on their own paths towards teaching careers.

Mayra Gonzalez, TPP Cohort 1 Graduate and Mary Chapa Academy 4th Grade Teacher in Greenfield, invoked a sense of hope among students embarking on the teacher education pathway. Another current MAESTROs student shared that "the induction ceremony really felt like a family reunion. It was great to have all our future teachers together along with our supporters of the programs from Hartnell and CSUMB cheering us on and providing inspiring words."

# Hartnell's Future Teachers Attend the Central Coast STEM Education Conference

Seven students from Greenfield, Soledad, and Salinas who are in Hartnell's Teacher Pathway Program, MAESTROs Program, and STEM pathways attended the Central Coast STEM Education Conference in Monterey on February 25, 2023. The conference, hosted by CSUMB, brought together 183 in-service and aspiring teachers with undergraduates from local community colleges and universities from Monterey, San Benito, and Santa Cruz counties at the Monterey Conference Center.

Attending students explored STEM teaching career pathways, learned about new frontiers in STEM education, and networked with other students, colleagues, and potential employers.

Dr. George Matsumoto, senior education and research specialist at the Monterey Bay Aquarium Research Institute (MBARI), introduced marine exploration and MBARI's role in modern marine research as the keynote speaker. Students also attended multiple breakout sessions and visited

with local STEM organizations and school districts who were tabling during the event, several of whom offer internship and job opportunities.

This conference was a first for our Hartnell students, who also attended a pre-conference workshop provided by Hartnell's Teacher Preparation Program to learn how to make the most of their conference experience. Students remarked that the experience was exciting, informative, and inspiring.

Napoleon Navarro, a new Hartnell student and future High School Agriculture Teacher, said, "I enjoyed attending the STEM internship conference because the keynote speaker provided a lot of new information about marine life and discovering the deep ocean that I didn't know about." Another student is now inspired to shift into a STEM major after attending the conference.

## Senator John Laird visits Hartnell College

On March 3rd, Senator Laird had the chance to engage in meaningful dialogue with college Superintendent/President Michael Gutierrez and board members Aurelio Salazar Jr. and Erica Padilla-Chavez. The visit provided a platform for potential State level support based upon expressed priorities of the College.

# CSUMB Startup Factory

Students and alumni from Hartnell College participated in Cal State University Monterey Bay's Startup Factory weekend from between February 3 - 5, 2023. The event presented opportunities for attendees to form teams, and present business plans "Shark Tank" style.

Some of the ideas explored during the Startup Factory included an app for local marketing by student Jordan Hankoff and an exercise accessory by alumni Saul Sanchez. Student Galilea Santiago joined a team seeking to develop services for local mothers. Alumna Malala Kakar participated in a team that proposed a carpooling app for university students.

While the teams worked diligently over the weekend, the process was enjoyable and much was learned about the process of building a business. Hartnell College plans to continue supporting this annual entrepreneurship program, as it has done over the last several years.

## Soledad High School College & Career Fair

On February 23, 2023 Celia Anderson, Richard Chapman, Napoleon Navarro and Joseph Navarro (Ag Ambassadors) attended the Soledad High School College & Career Fair where approximately 600 students were in attendance. Mr. Chapman demonstrated the "Festo Maclab" which is a 3 piece trainer that has a handling station, conveyor station and stacking station along with the "Festo AC/DC" trainer which is used for training basic electricity and multimeter.

Information was shared with them regarding all CTE Programs & National Signing Day.

# El Puente College Career Fair

On February 22, 2023 Kerry DeCarli and Jessica Martinez attended the College & Career Fair at Mt. Toro School where approximately 100 students were in attendance. Students were provided information related to CTE Programs and provided hands-on opportunities in Automotive and Entomology. Students were provided information for all CTE Programs and National Signing Day.

## Employee Announcements

**We are thrilled to introduce a new member of our Hartnell College team. Please wish them a warm welcome!**

Gayle Pitman, *associate vice president of institutional equity, effectiveness, and success (April 1)*

Kayla Valentine, *director of human resources (March 8)*

Brenton Gabeler, *clinic operations specialist (March 8)*

Daniel Jimmeyer, *network technician, promotion from IT support technician (March 8)*

# Alisal Campus Tour

On February 10, 2023 the Alisal Campus hosted approximately 60 students from Rancho San Juan and Center for Land Based Learning (FARMS Advanced class) and were provided with a tour of the Campus and presentations in Manufacturing, Diesel Technology, Administration of Justice, Welding, Business Technology, and Agriculture.

## Cash For College

Despite lower numbers than in previous years, The Cash For College event succeeded in empowering 24 parents and students by equipping them with the tools to complete their FAFSA/CA Dream Act Applications.

Additionally, Financial Aid hosted a Cash For College event on February 21 targeting South County High Schools which was attended by 25 individuals. Great job to everyone involved!

Donate a long-sleeve shirt to help protect farmworkers from pesticide exposure and heat-related illnesses. By donating a gently used long-sleeve shirt, we can provide clothing that covers our farm workers' skin, and keep them safe during the harvest season.

Extra:  
 Bandana(s) for face protection

**Shirts Must Be:**

- Light Color
- Natural Fabric (Cotton)
- Long Sleeve

Bring the entire family to Hartnell College for a **FREE**

# STEAM FAMILY SCIENCE DAY

Hartnell College Foundation presents the 17th Annual STEAM Family Science Day

**SUNDAY, APRIL 30, 2023**  
 1:00 p.m - 4:00 p.m

Main Campus, 411 Central Ave., Salinas, CA  
**HARTNELL COLLEGE WILLARD LEWALLEN STEM CENTER**

This free event is open to the public and parking will be accessible on campus.

This is a great day to enjoy with the entire family, engage in fun STEAM activities and learn about the offerings at Hartnell. Some of the activities and services offered include:

- Hands-on activities
- Health screenings
- Music
- Science demonstrations
- And more

**Community Partners Include:**

- Special performance from Ballet Folkloric
- Lean Green Reading Machine by Monterey County Free Libraries
- Salinas Science Workshop on Wheels (SS WoW)
- Sea Otter Savvy
- Monterey Bay F.C. Special Appearance
- Central Coast Mobile Fab Lab will be on site
- Live Reptiles by Bay Area Herpetological Society
- And more

**Opening remarks at 1:00 p.m. by James Hansen Newman, Ph.D., an American physicist and a former NASA astronaut who flew on four Space Shuttle missions.**

**Meet Olympic medalist Monica Abbott. At 2:30 p.m. she will unveil her first book "Rise and Shine: The Monica Abbott Story."**

**Hartnell College student clubs, staff, and faculty will highlight the fantastic world of science to inspire the next generation of scientists in the Salinas Valley.**

The Family Science Day will also offer a Community Resource Fair with valuable information for all families.

This event is wheelchair-accessible. Individuals requiring sign-language interpreters, real-time captioners, or other accommodations should contact Ana Ibarra at [albarra@hartnellcollegefoundation.org](mailto:albarra@hartnellcollegefoundation.org).

Food will be for sale at the Tacos Don Bento Food Truck. In addition, Hartnell College Foundation will be providing FREE snacks throughout the day.
