Approve Consent Agenda

IV. Experimental New Course, One Reading, Action

[From PCAH 7<sup>th</sup> ed.](#) "One type of stand-alone credit course is the "experimental" course. In general, an experimental course is one for which full information on some approval criterion, such as feasibility or need, cannot be determined until the course is actually offered on a pilot basis. After an

experimental course has been offered twice, it must be submitted to the college curriculum committee for approval as a regular course, or the college must discontinue offering the course as experimental. As noted above, experimental courses must be submitted to the Chancellor's Office curriculum inventory system and receive a control number in order for the college to claim apportionment. "

A) ESL

1) ESL 639 English and Spanish in the Community (noncredit)

(a) Course Approval
