Satisfactory completion of a mathematics course at or above the level of Intermediate Algebra shall satisfy both this competency requirement and the coursework requirement set forth in subdivision (b)(1)(D)(ii) of this section.

Last sentence of the description should be revised. Faculty authors will work on wording.

Discussion was held about the fact that if a student or someone assisting the student at A&R drops a corequisite course, they are not allowed to do so without dropping both courses (as should be the case). However, when instructors do the drops they can drop one and not the other. The system should be consistent and not allow

dropping one without the other. Chair will follow up with IT about whether this is a system setting that can be adjusted.
