#### 4.02 Meeting Format Discussion **President Hernandez** **Action**

The decision to vote was delayed until we fill all vacant ASHC positions, but a discussion was held to determine how people felt about keeping meetings hybrid or deleting the online link to make meetings "in-person only."

Some students favored in-person meetings because it forced on-campus interaction.

Some students disliked in-person meetings because they excluded other campuses and creates accessibility problems for people with health issues or do not live close to the main campus

### IV. ANNOUNCEMENTS

#### 5.01 Pop-Up Pantry Food Distribution.

Assistance is needed to distribute food

### V. ADJOURNMENT

## Supplemental Attachment from Public Comments

SSCCC Region IV Vice-Chair urged the student council to keep the meeting format a hybrid model to increase the voice of the student body and to help support the economic, environmental and physical health of Hartnell students at all campuses -- The Vice-Chair requested to have a prepared statement to be included in the official minutes (see the attached document titled "*Statement for Hybrid Model*")

### Statement for Hybrid Model

My name is Daniel Orta

I'm a fellow student and computer science major here at Hartnell College  
I am Vice Chair of the Student Senate for California Community Colleges in Region IV which represents Hartnell College Students and 10 other College Campuses and over 300,000 students in the region.

I'm here today because on today's agenda on Item 4.02 you are voting on the meeting format going forward and I want to make a direct appeal to the voting members of this body. Today you have the power make the student voice stronger by continue to allow participation in this hybrid model where students from all of our Hartnell Campuses can become involved with the Student Life at Hartnell Community College.

With gas at over \$5 per gallon, A vote for closed, in-person meetings for student governance makes it harder on our students economically especially those who are furthest from campus.

Not only this but according to a body of research by NASA and other Researchers there has been a substantial decrease in CO2 emissions in the last two years because of the implementation of hybrid models.

If you ever asked yourself "what can I do about global warming?" Well, Hartnell Leadership. This is it. This is your chance to have a direct impact, with your vote, you can help reduce carbon emissions into our atmosphere by giving students the option for signing in online.

The pandemic is still very real and I can personally attest to the seriousness of this as I myself was diagnosed with COVID-19 on Monday despite having been vaccinated.

I encourage members of this council to stand and support the economic, environmental, and physical health of all fellow Hartnell students and, with your vote, make a direct impact on CO2 emissions, and help support the voice of your fellow students at the Castroville, Soledad, and King City Campuses by voting for a hybrid model, a model that makes room for both in-person and online student representation.

Hartnell Student council, I encourage you to stand with your fellow community college students across the state of California and here in the Salinas Valley...

...And vote for a hybrid Model.

Thank you.

Entered into the Public Record at ASHC Council Meeting, Thursday January 27th @ approx. 3 pm.
